PRAJWAL SAHARE

Software Engineer | Java Backend Developer

Nagpur, Maharashtra, India | +91 82082 84725 | prajwal444@outlook.com | LinkedIn

PROFESSIONAL SUMMARY

Software Engineer with **2 years of professional experience** developing, enhancing, and maintaining backend applications using **Java**, **Spring Boot**, **Microservices**, and **RESTful APIs**. Experienced in software development, database integration, **API optimization**, production debugging, **root-cause analysis**, and Agile collaboration. Proficient in **object-oriented programming**, **SQL**, Git-based version control, and code review practices, with a strong focus on software reliability, maintainability, and code quality. Solved **600+ coding problems** across **LeetCode** and **GeeksforGeeks**, demonstrating strong problem-solving skills and knowledge of **data structures and algorithms**.

TECHNICAL SKILLS

- **Programming Languages: Java**, **Python**, **JavaScript**, **SQL**
- **Backend Development: Spring Boot**, **Spring MVC**, **Hibernate/JPA**, **Microservices**, **RESTful APIs**, **Node.js**, **Express.js**
- **Databases: MySQL**, **MongoDB**, **Oracle PL/SQL**, **Redis**
- **Software Engineering: Object-Oriented Programming**, **Data Structures and Algorithms**, **System Design Fundamentals**, Debugging, Troubleshooting, **Root-Cause Analysis**, **API Optimization**, Database Query Tuning
- **Tools & Technologies: Git**, **Maven**, **Docker**, **Postman**
- **Frontend Technologies: React.js**, **HTML5**, **CSS3**, **Bootstrap**
- **Development Methodologies: Agile/Scrum**, Code Reviews, Version Control, Collaborative Development

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) — **Nagpur, Maharashtra, India**

System Engineer — **October 2023 – October 2025**

- Developed and maintained scalable backend applications using **Java** and **Spring Boot** to support Priceline business workflows.
- Designed, implemented, and enhanced **RESTful APIs** to support business operations and integrations with downstream systems.
- Developed backend processing logic for **large JSON payloads**, implementing complex business transformations to support application requirements.
- Integrated **MySQL-backed services** with enterprise applications, maintaining data consistency and reliable data exchange.
- Investigated and resolved production issues through systematic debugging, troubleshooting, and **root-cause analysis**.
- Improved backend performance through **API optimization** and **database query tuning**.
- Participated in **code reviews** and followed coding standards to improve code quality, readability, and maintainability.
- Collaborated with developers, QA engineers, business analysts, and stakeholders throughout **Agile sprint-based development**.
- Used **Git** for source control, branch management, and collaborative software development.

PROJECTS

Contact Management System

Java, **Spring Boot**, **Spring Security**, **React.js**, **MongoDB**, **JWT**, **REST APIs**

- Developed a full-stack contact management application with a **Spring Boot** backend and **React.js** frontend.
- Implemented **JWT-based authentication** and role-based authorization using **Spring Security** to protect application resources.
- Designed and developed **RESTful APIs** for user management and contact operations.
- Integrated **MongoDB** to support persistent storage and retrieval of user data.
- Implemented search and filtering capabilities with **optimized backend query handling**.
- Built responsive user interfaces using **React's component-based architecture**.

QuickMart Fresh — Grocery Delivery Platform

Java 17, **Spring Boot**, **MongoDB**, **React.js**, **JWT**, **Maven**, **SMTP**

- Developed a full-stack grocery delivery platform using **Java**, **Spring Boot**, and **React.js**.
- Built **REST APIs** for product management, shopping cart operations, order processing, and user management.
- Implemented **JWT authentication** and role-based access control to secure application functionality.
- Developed order tracking and email notification features to support customer communication.
- Integrated frontend and backend components into a unified application architecture.
- Configured environment-based application settings to support deployment flexibility and cloud readiness.

EDUCATION

G H Raisoni College of Engineering — **October 2019 – October 2023**

Bachelor of Technology (B.Tech), Information Technology — **GPA: 8.42**

ACHIEVEMENTS

- Solved **600+ coding problems** across **LeetCode** and **GeeksforGeeks**, covering data structures, algorithms, and dynamic programming.
- Strengthened analytical thinking and problem-solving skills through consistent practice of complex programming challenges.
